This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

You can also embed plots, for example:

[1] "abe" % latex table generated in R 3.3.2 by xtable 1.8-2 package % Wed Feb 8 11:43:33 2017

years	event	group

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
